Summary: XU Jian currently serves as Director of BioEnergy Division and Director of Single-Cell Center at CAS-QIBEBT. He was born in Zhangzhou, Fujian, China in 1976. He obtained B.S in Biotechnology from Peking University in 1997, and M.S. in Computer Science and PhD in Biochemistry from Washington University in St. Louis in 2003. After serving as Research Instructor at Genome Institute of Washington University, he joined Qingdao Institute of BioEnergy and Bioprocess Technology, Chinese Academy of Sciences in 2008 and has been the founding Director of Single-Cell Center, CAS-QIBEBT. Together with its collaborators, the Center has been developing and demonstrating a new generation of single-cell analysis instruments. Via these innovative research tools, Jian and his colleagues are delineating and designing key metabolic processes, such as microalgal CO₂ fixation, cellulose conversion and human-microbe symbiosis, across the biological hierarchy of single-cell, population and consortium. He has published over 80 papers on peer-reviewed journals such as *Science*, *Cell Host Microbe*, *Nature Communications*, *Nature Plants*, *PNAS*, *PLoS Biology*, *PLoS Genetics*, *Plant Cell*, *Trends Plant Sci*, *Biotech Adv*, *ISME J*, *Plant J*, *Biotech Biofuels*, *Anal Chem*, *Lab Chip* etc, with over 3200 citations (for a full list of publications, please see https://www.researchgate.net/profile/Jian_Xu8). He currently serves at the Editorial Boards of *mSystems*, *Scientific Reports* and *Algal Research*. He has won a number of career awards from NSFC, MOST and CAS, including National Distinguished Young Investigator Award (2014). He has mentored nearly 20 doctoral students and postdoctoral scholars, and was recognized for excellence in mentorship via the 2013 CAS 100 Best PhD Thesis Award and the 2014 UCAS-BHPB Mentorship Award.
